

We've just completed a [demo song](#) for a new Reason Refill that will be released soon. Along with the demo song, we decided to create a small contest. The first person to correctly guess the number of sampler patches in this demo song, and then post the answer, wins the Refill for free (once it's released).

You can post your guess in reply to my [KVR Forum post](#) , or my [Propellerhead Forum](#). One guess per person please. Multiple guessers will be disqualified.

If you don't win, don't worry, we're planning on giving having a 20% off sale for the first week after the Reason Refill is released. If you want to be notified when the Refill is released, make sure you've subscribed to our [mailing list](#) . Good luck on your guess!
