

A Uniphonic customer, Brian Nottingham, was so impressed by the [PHAT MATH Refill](#) , that he decided to make his own patch list, with descriptions! The good news to you is, that he decided, "as a thank you", to give it to me to share with all the users.

Brian said he absolutely loves the [PHAT MATH Refill](#) . He even sent me a little testimonial:

"Phat Math by Uniphonic is my 'desert island' choice if I were allowed to have and use only one soundbank for Reason. I have never heard such amazing diversity and quality coming out of my beloved Reason Rack!" Brian Nottingham, Akron Ohio.
